Fall-Winter 2025 Collection

Accessories

Vanessa Wu unveils a Fall-Winter 2024-2025 collection that blends audacity, softness and modernity. With reinvented boots for assertive style, soft fabrics for enveloping comfort, and revisited leopard prints, each piece enhances your look. This season, elegance is combined with character and refinement for a stylish winter.

Reinvented santiag boots and booties add a touch of character to the look, perfect for those who dare to stride through the city with a confident step and assertive style. Their intricate detailing promises to make them the perfect ally for any urban or country getaway.

Immerse yourself in a cocoon of softness with our "moumoute" pieces, synonymous with comfort and warmth. The moccasins, delicately dressed in fluffy materials, offer a cozy refuge for your feet, while retaining their unparalleled elegance. Every step is a caress, every movement a dance of comfort, for a winter of serenity and sophistication.

Let yourself be seduced by leopard print, this season's emblem, which makes a subtle appearance on our creations. This timeless motif, revisited with modernity, brings a wild and refined touch to your outfits. Whether on boots or accessories, leopard is the ideal companion for those who want to express their personality while remaining resolutely elegant.

This winter, Vanessa Wu offers a collection where every piece tells a story, where every detail is designed to enhance your style. With a varied palette of options, our creations accompany you on all occasions, from everyday to the most exceptional moments.

## **IMPORTANT**

The purpose of this book is to help you present the entire collection on your travels.  
It is in no way intended to be sent to prospects or even existing customers.
